Education

B.Tech in Computer and Computer Engineering

Expected July 2026

Manipal Institute of Technology, Udupi

Technical Skills

Languages: Java, Python, C

Cloud & DevOps: Vercel(familiar)

Backend & Systems: Node.js, Express.js, REST APIs

Frontend: React, Next.js, Tailwind CSS

Databases: MongoDB, PostgreSQL, SQL (relational & NoSQL)

AI / ML: TensorFlow, Scikit-learn, Keras, Pandas, NumPy (familiar)

Tools: Git/GitHub, Linux/Unix, Bash, VS Code

CS Fundamentals: Data Structures & Algorithms, OS, Computer Networks, DBMS, OOP, SDLC

Experience

Software Developer Intern

Jan 2026 - May 2026

IndiVillage Tech Solutions LLP, Udupi

- Owned end-to-end development of scalable frontend systems using Next.js, React, and TypeScript in a cross-functional agile team — directly improving product quality for end users.
- Improved application efficiency by **25%** through modular architecture and reusable component design, reducing code duplication and accelerating future feature development.
- Optimized rendering performance and SEO for production applications, contributing to measurably faster page load times and improved customer experience.

Projects

Traffic Prediction System & Route Planner

- Built a traffic prediction and route planning system using **TensorFlow**, achieving **85% accuracy** on traffic forecasting tasks.
- Implemented a modular architecture separating data processing, model training, and inference services for improved maintainability and scalability.
- Processed and analyzed large-scale traffic datasets from **Kaggle** to generate real-time traffic insights and optimized route recommendations.

Stock Market Tracker (Android)

- Built a real-time stock market tracking application using Java and Android SDK, supporting watchlists, live quotes, and price alerts.
- Integrated third-party APIs and optimized data retrieval workflows to ensure reliable and low-latency updates.
- Applied modular design principles and reusable components to improve code maintainability, scalability, and user experience.

Certifications

- Neural Networks and Deep Learning – DeepLearning.AI
<https://coursera.org/share/773fa4c74dfb2ed3ebff6c5ce190420f>
- Introduction to Front-End Development – Meta
<https://coursera.org/share/efd42e36fe4b5ec4d2421b78f1988019>
- Python Programming Fundamentals – Microsoft
<https://coursera.org/share/feb53bd4b6d9095bd9dd70e93c37ef59>
